**Includes refreshments.**

**Delegates must be at least 18 years old.**

**Presented by the Firework Shop.**

# Firework Safety Workshop

## Sparklers burn at up to 3000° Fahrenheit... Ouch!

### Half day workshop

#### Who for?

This workshop is for anyone who will be letting off fireworks this season from private parties to larger displays and is a must for organisers of November and New Year events.

#### Why do it?

Firework displays should be fun for all the family but are inherently dangerous and can lead to appalling injuries. DTI statistics from 2005, the last year the data was captured, show that children are particularly at risk, accounting for over half the reported injuries.

#### What do I get?

An opportunity to practise in a safe environment  
Information regarding your legal obligations  
Tuition from pyrotechnic professionals  
Certificate of attendance

#### Ways to book

- 1 - Download, complete and send back the booking form
- 2 - Send an email to: [info@forthorstedtrainingacademy.co.uk](mailto:info@forthorstedtrainingacademy.co.uk)
- 3 - Simply ring 01634 823205
